## INTRODUCTION

### What is the Purpose of the Directory?

The Directory is designed to connect people to services, to be a Quick Reference for service providers and local agencies. The connecting of people facing life challenges to their community service and support providers is vital. Focus on community assets and strengths--emphasizing what each county has to meet people's needs; which improves community life. This effort is intended to identify and describe these services and distribute this information to as broad an audience as possible.

*An additional purpose is for those who are looking to make material or monetary donations; please contact the agency on how you can do that. Donations are very much appreciated.*

### Directory Limitation

The agencies listed in this directory may not be the only resources available. We have tried to include all appropriate agencies and organizations; however, some information may prove to be missing.

It is our intent to expand this list as more information is made available. To do this, we rely on the community of providers and users to assist us in maintaining accurate and relevant information. If you recognize inaccuracies about a service or agency in this directory, or if you know of or are part of an agency you think should be included, please notify the editors. Update requests can be submitted via email to: [tammy@aspellrecovery.com](mailto:tammy@aspellrecovery.com)

The websites are updated as quickly as possible and includes the most recent information available. The printed version of the Directory is updated annually.

The information on the websites and in the printed version of the Directory for each organization has been provided by the service provider or from the organization's website.

Dear Fellow Tennesseans,

Tennessee's Department of Children's Services is aware that children and families across the state may need additional support during this unprecedented and challenging time. As always, our priority is ensuring the safety, permanency and well-being of children by building strong, healthy and empowered families. You can help us achieve this goal by looking out for the children and families in your community. If you identify a family that may need assistance, reach out with a helping hand to link them to important resources found in this guide. By taking care of the children in our communities, together we can make a difference.

Sincerely,

Commissioner Jennifer Nichols

# Do you need to report the abuse, neglect or exploitation of a child or children?

## Tennessee Child Abuse Hotline: 877-237-0004

- **In case of emergency and in life-threatening situations, Call 9-1-1.**
- Call the Child Abuse Hotline to report knowledge or suspicions of child abuse or neglect in the State of Tennessee.
- Reports also can be made online on our [secure site](#) or by using the [MyTN](#) mobile app.

Our trained case managers will guide Hotline callers through a series of questions. Callers do not have to know all the details of the abuse or neglect. The Hotline case managers use the information you provide to determine the severity of the situation and how best to intervene.

### Possible Indicators of Abuse and Neglect:

- The child has repeated injuries that are not properly treated or adequately explained.
- The child begins acting in unusual ways ranging from disruptive and aggressive to passive and withdrawn.
- The child acts as a parent toward his or her brothers and sisters or even toward their own parents.
- The child may have disturbed sleep (nightmares, bed wetting, fear of sleeping alone, and needing nightlight).
- The child loses his/her appetite, overeats or may report being hungry.
- There is a sudden drop in school grades or participation in activities.
- The child may act in ways that are developmentally inappropriate, such as sexual behavior that is not normal for his/her age group.
- The child may report abusive or neglectful acts.
- The caregiver appears to be under the influence to the extent they are unable to care for their child.
- There is evidence of illicit substance use in the home (e.g., drug paraphernalia) or other hazards that could lead to child injury/illness (e.g., weapons in reach, extremely unsanitary conditions)

*Note: The above signs can indicate something is wrong but do not necessarily indicate abuse or neglect.*

Download an [information poster](#) with the hotline number you can display in your school, business or church. Spanish version: [Information Poster](#)

### Mandated Reporter Training:

Every Tennessean over the age of 18 is a mandated reporter, meaning you have a legal obligation to report suspicions or knowledge of child abuse or neglect. A free online training offers the public information on how to report child abuse and neglect in Tennessee. It explains how the process works, plus policies, laws and what reporters can expect.
